

I oppose LPFM expansion or any action affecting K-LOVE or AIR-1 stations. As a resident of Lexington, Ky, my family and I listen to these stations at all times when radio's are used, at home, in the car and on-line. These radio stations offer a family friendly alternative to the other music options in our community, many of which are quite offensive. My teenage daughter and her friends love this music and it has a very beneficial effect on our local community, providing an alternative that does not require painful explanations or apologies for materials. K-LOVE and AIR-1 are very important to the public interest of our community and I object to any action affecting their broadcast.
